

## A true palace from the times of the monarchy

This impressive neoclassical palace was one of the best spa hotels in Europe at the time of its establishment in 1912. Presidents T. G. Masaryk, Edvard Beneš and a number of other important personalities stayed here, such as Marie Curie Skłodowska, Richard Strauss, Max Švabinský, Baron Rothschild and many others.

It has maintained its uniqueness for more than a hundred years and even today it has lost nothing of its glamour. The elegance of Jáchymov's historical gem is underlined by romantic balustrades and original architectural details.

Clients are accommodated in luxurious rooms. Those, staying in the highest categories (Superior Plus and Suite), may enjoy gourmet meals in the first class Blue Restaurant, together with any other visitor to Jáchymov.

Catering in the form of a rich buffet is provided for all other guests in the surrounding hotel restaurants.

If you are looking for top-class hotel and spa services, you are at the right place. Enter the spa of the future and experience the unique situation and benefits of the Radium Palace hotel.

## Radon Spa Jachymov

spa resort in the Ore Mountains – a place for health and active holidays

The town itself, located among steep slopes, is a natural gateway to the Ore Mountains. The spa resort is a great base for discovering the magical beauty of nature. In the 16th century, Jáchymov, then still Sankt Joachimsthal, was one of the most important European cities.

In 1520 the Royal Mint in Jáchymov began to mint silver tolar, a coin that became a European tender and later gave its name to the US dollar.

Spa Jáchymov was founded in 1906 as the first radon spa in the world. Today, the healing water is pumped from four drill holes up to 300 m deep. The boreholes are located on the 12th level, the deepest part of the Svornost mine, which is the oldest operating mine in Europe. Jáchymov Spa employs 21 miners there.

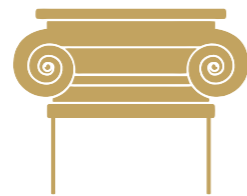

The Ore Mountains are a real paradise for your active vacation. The most important Czech winter sports centers and plenty of places for rich summer activities are just few steps away.

## Health from the depths of the earth

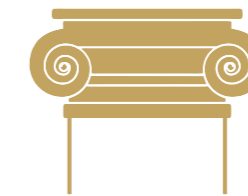

The healing Jáchymov radon water is thousands of years old. You cannot find so high concentration of radon in natural mineral water in any other European spa. The water relieves musculoskeletal pain and helps to treat nervous diseases.

The uniqueness of the Jáchymov spa lies in the extraordinary healing effects of water with high radon concentration in combination with first class rehabilitation.

Experience the healing effects of unique radon baths by choosing from our wide range of traditional therapeutic stays.

Hotel Radium Palace offers the highest comfort for medical, relaxation and wellness stays as well as for an active holiday.

Enjoy the luxury and recharge your batteries in the spa after an active day in the mountains. Treat yourself by resting in bubbles. Pamper yourself with a massage, and simply relax.

## Corporate events

Are you looking for a place to organize a training, work-shop, presentation, Christmas party or any other corporate or social event?

Hotel Radium Palace offers attractive location, top quality facilities and perfect service for these events. Your employees or business friends will appreciate the first-class gastronomy, catering service and a wide range of leisure and teambuilding activities.

After a working day, relax in the wellness center with swimming pool, whirlpool and saunas, or book a spa treatment. Or else join the popular outdoor activities - skittles, pétanque, outdoor fitness, nordic walking and more.

The surrounding mountains offer opportunities for sports and other activities. Part of the teambuilding can be downhill or cross-country skiing in winter, cycling or hiking in summer.
