

1st WORLD'S RADON SPA JACHYMOV

AXXOS HOTELS

JACHYMOV RADON WATER THERAPY

Jachymov Spa is unique not only in Europe but also worldwide. It is the first radon spa in the world and the most effective one in Europe. The uniqueness of Jachymov Spa lies in the extraordinary healing effects of water with a high radon concentration, the renowned methods of Czech physiotherapy, and the individualized medical approach of all our physicians. Jachymov radon water treatment may offer a solution to your health concerns. The spa provides a range of treatments as well as excellent facilities for relaxation and an active holiday in a region listed as a UNESCO World Heritage Site.

INDICATIONS AND CONTRAINDICATIONS

- Pregnant women
- Children and adolescents under 18 years of age
- Patients within 2 years of surgery or a cancer diagnosis, unless their oncologist provides consent for radon treatment

RADON WATER

Nowhere else in Europe does a spa offer a concentration of radon in natural mineral water as high as that found in Jachymov. For this reason, Jachymov Spa is regarded as the most effective radon spa in Europe.

Combined with advanced rehabilitation methods, radon baths form the cornerstone of spa treatments in Jachymov. To enable your body to respond fully to the therapy and initiate its natural regenerative processes, a minimum of 10 radon bath sessions is recommended.

Regeneration does not end with the final bath; on the contrary, it continues for a further 4–6 weeks. Radon treatments are very gentle, which makes all spa procedures suitable even for elderly guests.

DID YOU KNOW THAT

In the 16th century, Jachymov was one of the most important cities in Europe, owing to its right to mint silver coins.

In 1520, the Royal Mint in Jachymov began producing the silver tolar, a coin that became widely accepted across Europe and later gave its name to the U.S. dollar.

The town's history is closely linked to the mining of silver, tin, and uranium.

The last mine still operating in Jachymov, known as Svornost, continues to supply radon water to the spa to this day.
